

Agenda

Training course on data formatting and data submission to EBAS

When: 8 - 9 October 2014

Where: NILU at Kjeller, Norway

Invitation to: Data providers to EBAS

Organisers: Anne Hjellbrekke (agh@nilu.no), Wenche Aas and Ann Mari Fjæraa

Main goal: The course aims to give data reporters to the EMEP programme an introduction to the data submission procedures with the new multicolumn NASA Ames 1001 data format used in the EBAS database. There will be a particular focus on the reporting of EMEP parameters (level 1 and level 2). Other data providers submitting data to EBAS, e.g. associated to the ACTRIS and InGOS EU projects, and WMO/GAW WDCA are also welcome.

Day 1: Wednesday 8 October	
09.00 – 12.00	Introductory presentations
	<ul style="list-style-type: none"> Welcome Introduction and background <p>The EBAS Database</p> <ul style="list-style-type: none"> New extended data format templates Additional meta data (uncertainties, instrumental information etc.) Special features regarding WMO/GAW WDCA and ACTRIS <p>Coffee break at ca 10.30</p>
12.00-12.30	Lunch
